There are numerous museums, theaters, exhibition centers, cultural heritage objects, city parks, and green zones.

The city was founded where two rivers confluence – Volga and Kotorosl.

Yaroslavl has a beautiful embankment, which is considered the most beautiful on the Volga.

We have a wide variety of transport – there are two railway stations, an bus hub, a river port, and an airport.

The first Russian theater was founded and still operates in the city!

REVIEWS

Yaroslavl State Technical University was my best choice! They checked me into the dorm as soon as I arrived, immediately found my compatriots and friends, and I already know where I'll be working after I graduate!

Valubita Nalishua, Zambia, Construction.

The instructors are really good at YSTU, and I really consider myself ready to work in my specialty. I am especially glad that I was able to take part in many sports and creative events during my studies. YSTU is my family!

Ismoil Saidoshurov, Tajikistan, Land Transport and Technological Complexes.

I'm very glad I came to Yaroslavl State Technical University, because they are always ready to help, no matter what happens. I'm definitely going into postgrad here after I graduate.
